2020-2022: President of Taiwan Academy of Aesthetic Dentistry

Since 2014: Partnership of TaipeiSmile Dental Clinic in Taipei, Taiwan

Since 2023: Representative of AAAD

Title: Current Dental Microscope in Taiwan

**Abstract:**

Over the past decade, microscopic dentistry in Taiwan has experienced a significant growth. A review of these ten years, it reveals that advanced microscope hands-on courses from Japan and Europe speakers have played an important role in this development.

Microscopic training in Taiwan has evolved from individual exploration to learning directly from leading international experts. The utilization of dental microscope has expanded from endodontics and prosthodontics to more complex periodontal microsurgical procedures. Along this journey, numerous milestones have continuously driven the advancement of Taiwan's dentistry.

This presentation will share some landmark courses and international conferences have contributed to Taiwan's progress, while also analyzing the current status and future direction of microscopic dentistry in Taiwan.
